ASX/Media Announcement

Perth: 10 December 2014

GOBBOS DRILLING COMPLETED

Platypus Minerals Ltd (“Platypus” or “Company”)

Platypus is pleased to advise the completion of the exploration drilling program at the Gobbos Cu-Mo porphyry prospect in the East Pilbara region of Western Australia.

The three-hole reverse circulation program was completed on Sunday 7 December 2014. The field crew has demobilised to Perth and the last batch of samples is en route to the ALS Minerals analytical laboratory in Perth.

It is expected that assay results will be available in approximately two weeks’ time.

Further information will be provided in due course.
