4.2 What Eligible Shareholders may do

The number of Shares to which Eligible Shareholders are entitled is shown on the accompanying personalised Entitlement and Acceptance Form. Eligible Shareholders may:

- (a) take up all of their Entitlement (refer to Section 4.3);
- (b) take up all of their Entitlement and apply for Shares under the Shortfall Offer (Section 4.4);
- (c) sell all of their Entitlement on ASX (refer to Section 4.4);
- (d) take up a proportion of their Entitlement and sell the balance on ASX (refer to Section 4.6);
- (e) take up a proportion of their Entitlement and allow the balance to lapse (refer to Section 4.7);
- (f) sell all or a proportion of their Entitlement other than on ASX (refer to Section 4.8); or
- (g) allow all or part of their Entitlement lapse (refer to Section 4.9).

4.3 Taking up all of your Entitlement

Should you wish to accept all of your Entitlement, then applications for Shares under this Prospectus must be made on the Entitlement and Acceptance Form which accompanies this Prospectus and completing a BPAY® or EFT payment, in accordance with the instructions referred to in this Prospectus and on the Entitlement and Acceptance Form. Please read the instructions carefully.

If you wish to pay via BPAY® or EFT you must follow the personalised instructions in your Entitlement and Acceptance Form. Make sure that you use the specific Biller Code and unique Customer Reference Number (**CRN**) on your personalised Entitlement and Acceptance Form. You do not need to return a completed Entitlement and Acceptance Form but are taken to have made the declarations in the Entitlement and Acceptance Form and the representations outlined below in Section 4.10. If you have more than one shareholding of Shares and consequently receive more than one Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those Shareholdings only use the CRN specific to that Shareholding as set out in the applicable Entitlement and Acceptance Form. Do not use the same CRN for more than one of your Shareholdings. This can result in your Application Monies being applied to your Entitlement in respect of only one of your Shareholdings (with the result that any application in respect of your remaining Shareholdings will not be valid).

You should be aware that your own financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration when making payment. It is your responsibility to ensure that funds submitted through BPAY® are received by 4:00pm (AEST) on the Closing Date.

The Company shall not be responsible for any postal or delivery delays or delay in the receipt of the BPAY® payment.

4.4 Taking up all of your Entitlement and applying for Shares under the Shortfall Offer

Should you wish to accept all of your Entitlement and apply for Shares under the Shortfall Offer, then applications for Shares under this Prospectus must be made on the Entitlement and Acceptance Form which accompanies this Prospectus or by completing a BPAY® or EFT payment, in accordance with the instructions referred to in this Prospectus and on the Entitlement and Acceptance Form. Please read the instructions carefully.

4.5 Selling all your Entitlement on ASX

The Entitlements under the Offer are renounceable which means that all or part of an Eligible Shareholder's rights to subscribe for Shares under the Offer may be traded on ASX. If you wish to sell all of your Entitlement on ASX, provide instructions to your stockbroker regarding the Entitlement you wish to sell on ASX. Trading of Entitlements will commence on ASX on 23 April 2020 and will cease on 5 May 2020.

There is no guarantee that an Eligible Shareholder will be able to sell all or any part of their Entitlement on ASX or that any particular price will be paid for the Entitlements sold on ASX.

4.6 Taking up a proportion of your Entitlement and selling the balance on ASX

If you wish to take up only part of your Entitlement, complete the accompanying personalised Entitlement and Acceptance Form for the number of Shares you wish

to take up and follow the steps in Section 4.3, or make a payment by BPAY in accordance with Section 4.12.

Subsequently, provide instructions to your stockbroker regarding the proportion of your Entitlement you wish to sell on ASX.

4.7 Taking up a proportion of your Entitlement and allowing the balance to lapse

If you wish to take up only part of your Entitlement and allow the balance to lapse, complete the accompanying personalised Entitlement and Acceptance Form for the number of Shares you wish to take up and follow the steps in Section 4.3. If you take no further action, the balance of your Entitlement will lapse and you will have forfeited any potential benefit to be gained from taking up or selling that part of your Entitlement.

4.8 Selling all or a proportion of your Entitlement other than on ASX

You may elect to transfer all or a proportion of your Entitlement to another person other than on ASX. If the purchaser of your Entitlement is an Ineligible Shareholder or a person that would be an Ineligible Shareholder if they were a registered holder of Shares, that purchaser will not be able to take up the Entitlement they have purchased.

If you are a shareholder on the issuer sponsored subregister and you wish to transfer all or a proportion of your Entitlement to another person other than on ASX, forward a completed standard renunciation and transfer form (obtainable from the Share Registry) and the applicable transferee's payment receipt for the Shares they wish to subscribe for to the Share Registry (by email to corporate.actions@automicgroup.com.au at any time after the issue of this Prospectus and on or before the Closing Date) in accordance with the details set out in the Entitlement and Acceptance Form.

If you wish to transfer all or a proportion of your Entitlement to or from another person on the CHESSE subregister you must engage your CHESSE controlling participant (usually your stockbroker). If the transferee wants to exercise some or all of the Entitlement, you should follow your stockbroker's instructions as to the most appropriate way to take up the Entitlement on their behalf. The Application Monies for Shares the transferee of the Entitlement wants to acquire must be received by Share Registry in accordance with Section 4.3.

4.9 Allow all or part of your Entitlement to lapse

Shareholders should be aware that their Entitlement may have value. Entitlement are renounceable, which enable Eligible Shareholders who do not wish to take up part or all of their Entitlement to seek to sell or trade all or some of their Entitlement on ASX.

If you do not wish to accept or trade any part of your Entitlement, you are not obliged to do anything. If you do not take up your Entitlement or dispose of your Entitlement by the Closing Date, the Offer to you will lapse.

4.10 Implications of an acceptance

Returning a completed Entitlement and Acceptance Form or paying any Application Monies by BPAY® or EFT will be taken to constitute a representation by you that:

- (a) you have received a copy of this Prospectus and the accompanying Entitlement and Acceptance Form, and read them both in their entirety;
- (b) you acknowledge that once the Entitlement and Acceptance Form is returned, or a BPAY® or EFT payment instruction is given in relation to any Application Monies, the application may not be varied or withdrawn except as required by law.

4.11 Minimum subscription

On the basis that the Offer is partially underwritten by the Underwriter to \$1,500,000, the minimum subscription under the Offer is \$1,500,000. No Securities will be issued until the minimum subscription has been received.

If the minimum subscription is not achieved within 4 months after the date of issue of this Prospectus, the Company will either repay the Application Monies to the Applicants or issue a supplementary prospectus or replacement prospectus and allow Applicants one month to withdraw their Application and be repaid their Application Monies.

4.12 Payment by BPAY® or EFT

If paying by BPAY – available to Australian registered Eligible Shareholders:

To accept your entitlement and pay via BPAY, you should:

- (a) read this Prospectus and the Entitlement and Acceptance Form in their entirety and seek appropriate professional advice if necessary; and
- (b) make your payment via BPAY for the number of Shares you wish to subscribe for (being the Rights Issue offer price of \$0.007 per Share multiplied by the number of Shares for which you are accepting your Entitlement plus any additional Shares from the Shortfall) so that it is received no later than 4:00pm (EST) on the Closing Date, or such later date as the Company may specify.

You can only make a payment via BPAY if you hold an account with an Australian financial institution.

If you choose to pay via BPAY you are not required to submit the Entitlement and Acceptance Form.

If your BPAY payment is received by 4:00pm (EST) on the Closing Date or such later date as the Company may specify, New Shares accepted are anticipated to be issued to you on or before the date set out in the timetable on page X of this Prospectus (which date may change without notice).

You should be aware that your financial institution may implement earlier cut off times with regards to electronic payment and should therefore take this into consideration when making payment. You may also have your own limit on the amount that can be paid via BPAY. It is your responsibility to check that the amount you wish to pay via BPAY does not exceed your limit. The Company and

the share registry accept no responsibility for unsuccessful, delayed, or incomplete BPAY payments.

If you have multiple holdings you will have multiple BPAY reference numbers. To ensure that you receive your entitlement in respect of each holding, you must use the customer reference number shown on each personalised Entitlement and Acceptance Form when paying for any Shares that you wish to accept your entitlement for in respect of that holding. Payments in excess of the amount payable for one holding will not be treated as payment for another holding, and the excess will be refunded to the applicant without interest.

If paying by Electronic Funds Transfer (**EFT**) – available to New Zealand registered Eligible Shareholders:

To accept your entitlement and pay by EFT, you should:

- (a) read this Prospectus and the Entitlement and Acceptance Form in their entirety and seek appropriate professional advice if necessary; and
- (b) complete the personalised Entitlement and Acceptance Form which accompanies this Prospectus (instructions for completing and returning the Entitlement and Acceptance Form are set out on the form);
- (c) make your payment via EFT for the number of Shares you wish to subscribe for (being the Rights Issue offer price of \$0.007 per Share multiplied by the number of Shares for which you are accepting your Entitlement plus any additional Shares from the Shortfall) so that it is received no later than 4:00pm (EST) on the Closing Date, or such later date as the Company may specify; and
- (d) return the completed Entitlement and Acceptance Form together with a copy of payment receipt for the applicable amount (being the Offer price of \$0.007 per Share multiplied by the number of Shares for which you are accepting your entitlement) to corporate.actions@atomicgroup.com.au so that it and payment are received by no later than 5:00pm (EST) on the Closing Date (which is set out in the timetable in Section 2), or such later date as the Company may specify. The Company and the share registry accept no responsibility for delayed or misdelivered Entitlement and Acceptance Forms or payments.

It is your responsibility to ensure that your BPAY® or EFT payment is received by the share registry by no later than 4:00pm (AEST) on the Closing Date. You should be aware that your financial institution may implement either cut-off times with regards to electronic payment and you should therefore take this into consideration when making payment. Any application monies received for more than your final allocation of Shares (only where the amount is \$1.00 or greater) will be refunded. No interest will be paid on any application monies received or refunded.

One (1) New Option with an exercise price of \$0.02 and expiring on the second anniversary date of issue will be issued for every two (2) Shares subscribed for and issued under the Offer.

4.13 Underwriting

The Offer is partially underwritten by the Underwriter up to \$1,500,000. Refer to Section 8.4 for details of the terms of the underwriting.

4.14 Effect on control of the Company and potential dilution to Shareholders

If all Entitlements are accepted by Shareholders to the full extent, then the Offer will not result in any change to the control of the Company. If all Entitlements under the Offer are not accepted to the full extent, then the shareholding interest of non-participating Shareholders will be diluted.

The Underwriter is not presently a shareholder of the Company, therefore the extent to which Shares are issued pursuant to the underwriting will increase the Underwriter's voting power in the Company. The Underwriter is not a related party of the Company for the purposes of the Corporations Act. The Underwriter does not currently have a relevant interest in any Shares or Options and at a maximum will only be required to underwrite 214,285,714 Shares and 107,142,857 New Options. This equates to a maximum voting power of the Underwriter of 4.16% on an undiluted basis.

In addition, Shareholders should note that if they do not participate in the Offer, their holdings are likely to be diluted by approximately 10% (as compared to their holdings and number of Shares on issue as at the date of the Prospectus). Examples of how the dilution may impact Shareholders is set out in the table below:

Holder	Holding as at Record date	% at Record Date	Entitlements under the Offer	Holdings if Offer not taken Up	% post Offer
Shareholder 1	100,000,000	2.16%	11,111,111	100,000,000	1.94%
Shareholder 2	50,000,000	1.08%	5,555,555	50,000,000	0.97%
Shareholder 3	25,000,000	0.54%	2,777,777	25,000,000	0.49%
Shareholder 4	10,000,000	0.22%	1,111,111	10,000,000	0.19%
Shareholder 5	1,000,000	0.02%	111,111	1,000,000	0.02%

Notes:

1. This is based on a share capital of 4,633,668,407 Shares.
2. The dilutionary effect shown in the table is the maximum percentage on the assumption that those Entitlements not accepted by Eligible Shareholders are placed under the Shortfall Offer. In the event all Entitlements are not accepted and some or all of the resulting Shortfall was not subsequently placed, the dilution effect for each Shareholder not accepting their Entitlement would be a lesser percentage.

In addition, the Underwriting Agreement includes a provision that the Underwriter will ensure that no person will acquire, through sub-underwriting the Offer, a holding of Shares of an amount in excess of 19.9% of all the Shares on issue on completion of the Offer.

4.15 Lead Manager and Underwriter

Mahe Capital Pty Ltd has been appointed as lead manager and underwriter to the Offer. The terms of the appointment of the Lead Manager are summarised in Section 8.4.

4.16 Shortfall Offer

Any Entitlement not taken up pursuant to the Offer will form the Shortfall Offer.

The Shortfall Offer is a separate offer made pursuant to this Prospectus and will remain open for up to three months following the Closing Date. The Company will allow Eligible Shareholders (excluding related parties of the Company) to

apply for Shares and New Options under the Shortfall Offer subject to such applications received by the Closing Date. The issue price for each Share to be issued under the Shortfall Offer will be \$0.007 being the price at which Shares have been offered under the Offer.

Allocation of the Shortfall Securities is at the absolute discretion of the Directors, in consultation with the Underwriter. There is no guarantee that Eligible Shareholders will receive Shortfall Securities applied for under the Shortfall Offer. The Directors and the Underwriter do not intend to refuse an application for Shortfall Securities from Eligible Shareholders other than in circumstances of oversubscription or where acceptance may result in a breach of the Corporations Act. If the number of Shortfall Securities applied for by Eligible Shareholders exceeds the total Shortfall, the Shortfall Securities will be allocated among applying Eligible Shareholders proportionate to their existing holdings.

4.17 ASX listing

Application for Official Quotation of the Shares offered pursuant to this Prospectus will be made in accordance with the timetable set out at the commencement of this Prospectus. Subject to meeting the requirements of the ASX Listing Rules, the Company will also apply for quotation of the New Options. If ASX does not grant Official Quotation of the Shares offered pursuant to this Prospectus before the expiration of 3 months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any Shares and will repay all Application Monies for the Shares within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the Securities is not to be taken in any way as an indication of the merits of the Company or the Securities now offered for subscription.

4.18 Issue

Securities issued pursuant to the Offer will be issued in accordance with the ASX Listing Rules and timetable set out at the commencement of this Prospectus.

Securities issued pursuant to the Shortfall Offer will be issued on a progressive basis. Where the number of Shares issued is less than the number applied for, or where no issue is made, surplus Application Monies will be refunded without any interest to the Applicant as soon as practicable after the closing date of the Shortfall Offer.

Pending the issue of the Securities or payment of refunds pursuant to this Prospectus, all Application Monies will be held by the Company in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

Holding statements for Securities issued under the Offer will be mailed in accordance with the ASX Listing Rules and timetable set out at the commencement of this Prospectus and for Shortfall Securities issued under the Shortfall Offer as soon as practicable after their issue.

4.19 Overseas shareholders

This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Shares these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offer is not being extended and Shares will not be issued to Shareholders with a registered address which is outside Australia, New Zealand or the United Kingdom.

New Zealand

The Offer is being made in New Zealand in reliance on the transitional provisions of the Financial Markets Conduct Act 2013 (New Zealand) and the Financial Markets Conduct (Incidental Offers) Exemption Notice 2016 (New Zealand).

United Kingdom

Neither the information in this Prospectus nor any other document relating to the Offer or Shortfall Offer has been delivered for approval to the Financial Services Authority in the United Kingdom and no prospectus (within the meaning of section 85 of the Financial Services and Markets Act 2000, as amended (**FSMA**)) has been published or is intended to be published in respect of the Shares. This document is issued on a confidential basis to fewer than 150 persons (other than "qualified investors" (within the meaning of section 86(7) of FSMA)) in the United Kingdom, and the Shares may not be offered or sold in the United Kingdom by means of this document, any accompanying letter or any other document, except in circumstances which do not require the publication of a prospectus pursuant to section 86(1) FSMA. This Prospectus should not be distributed, published or reproduced, in whole or in part, nor may its contents be disclosed by recipients to any other person in the United Kingdom. Any invitation or inducement to engage in investment activity (within the meaning of section 21 FSMA) received in connection with the issue or sale of the Shares has only been communicated or caused to be communicated and will only be communicated or caused to be communicated in the United Kingdom in circumstances in which section 21(1) FSMA does not apply to the Company.

Appointment of nominee

Pursuant to ASX Listing Rule 7.7, the Company has appointed a nominee, Mahe Capital Pty Ltd, to sell the Entitlements to which Ineligible Shareholders are entitled. The nominee will have the absolute and sole discretion to determine the timing and price at which the Entitlements may be sold and the manner of any such sale.

Any interest earned on the proceeds of the sale of these Entitlements will firstly be applied against expenses of such sale, including brokerage, and any balance will accrue to the relevant Ineligible Shareholders as described below.

The net proceeds of the sale of these Entitlements will then be forwarded by the Company as soon as practicable to the Ineligible Shareholders, in proportion to their share of such Entitlements (after deducting brokerage commission and other expenses). If any such net proceeds of sale are less than the reasonable costs that would be incurred by the Company for distributing those proceeds, such proceeds may be retained by the Company.

Notwithstanding that the nominee may sell Entitlements, Ineligible Shareholders may nevertheless receive no net proceeds if the costs of the sale are greater than the sale proceeds.

Neither the Company nor the nominee will be subject to any liability for failure to sell the Entitlements or to sell them at a particular price. If, in the reasonable opinion of the nominee, there is no viable market for the Entitlements of the Ineligible Shareholders, or a surplus over the expenses of the sale cannot be obtained the Entitlements that would have been offered to the Ineligible Shareholders, then those Entitlements will be allowed to lapse. The Shares not taken up will form part of the Shares to be taken up by the Underwriter pursuant to the Underwriting Agreement.

Shareholders resident in Australia, New Zealand or United Kingdom holding Shares on behalf of persons who are resident overseas are responsible for ensuring that taking up an Entitlement under the Offer does not breach regulations in the relevant overseas jurisdiction. Return of a duly completed Entitlement and Acceptance Form will be taken by the Company to constitute a representation that there has been no breach of those regulations.

7. RISK FACTORS

7.1 Introduction

The Securities offered under this Prospectus are considered highly speculative. An investment in the Company is not risk free and the Directors strongly recommend potential investors to consider the risk factors described below, together with information contained elsewhere in this Prospectus and to consult their professional advisers before deciding whether to apply for Securities pursuant to this Prospectus.

There are specific risks which relate directly to the Company's business. In addition, there are other general risks, many of which are largely beyond the control of the Company and the Directors. The risks identified in this section, or other risk factors, may have a material impact on the financial performance of the Company and the market price of the Shares.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

7.2 Company specific

(a) **Coronavirus (COVID – 19)**

The outbreak of the coronavirus disease (**COVID-19**) is impacting global economic and securities markets. The nature and extent of the effect of the outbreak on the performance of the Company remains unknown. The Company's share price may be adversely affected in the short to medium term by the economic uncertainty caused by COVID-19. Further, any governmental or industry measures taken in response to COVID-19 may adversely impact the Company's operations and are likely to be beyond the control of the Company.

The Directors are monitoring the situation closely and have considered the impact of COVID-19 on the Company's business and financial performance. However, the situation is continually evolving, and the consequences are therefore inevitably uncertain. In compliance with its continuous disclosure obligations, the Company will continue to update the market regarding the impact of the coronavirus on the Company. If any of these impacts appear material prior to close of the Offer, the Company will notify investors under a supplementary prospectus.

(b) **Potential for significant dilution**

Upon implementation of the Offer, assuming all Entitlements are accepted and no Options are exercised prior to the Record Date the number of Shares in the Company will increase from 4,633,668,407 currently on issue to 5,148,520,452. This means that each Share will represent a significantly lower proportion of the ownership of the Company.

It is not possible to predict what the value of the Company or a Share will be following the completion of the Offer being implemented and the Directors do not make any representation as to such matters.

The last trading price of Shares on ASX prior to the prospectus being lodged of \$0.012 is not a reliable indicator as to the potential trading price of Shares after implementation completion of the Offer.

(c) **Convertible Note**

As set out in Section 5.4, the Company inherited a secured C\$5,000,000 Convertible Note (**Note**), which matures on 7 December 2020, as part of its acquisition of Desert Lion. Under the terms of Note, C\$1,000,000 must be repaid on the maturity date. The remaining C\$4,00,000 may be converted into 108,000,000 Shares at a deemed issue price of C\$0.037 per Share at the discretion of the noteholder on or before 7 December 2020. The Note is secured over the assets acquired by the Company from Desert Lion.

In the event that the noteholder elects to convert the Note in accordance with its terms, Shareholders will be diluted. Alternatively, if the Company is required to repay the Note in cash, the Company may require additional financing to repay the Note which may also result in dilution to Shareholders if funded by equity financing or, if debt financing is available, may involve restrictions on financing and operating activities. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.

If the Company is unable to obtain additional financing, the noteholder may invoke its rights over its security.

(d) **Jinhui Offtake Agreement**

Desert Lion received a prepayment of US\$4.5 million (the **Deposit**) from Jiangxi Jinhui Lithium Co Ltd (**Jinhui**), a private Chinese corporation under an offtake agreement dated 6 November 2017, as amended (the **Jinhui Lithium Offtake Agreement**).

The Jinhui Lithium Offtake Agreement provides for the sale of certain material located in surface stockpiles at the Karibib project in Namibia.

Following the completion of the first shipment by Desert Lion on 24 April 2018, the Deposit is no longer refundable and the remaining balance shall continue to amortize against any future shipments of the stockpile material without accruing interest.

The term of the Jinhui Lithium Offtake Agreement began on 16 November 2017 and ends on the earlier of:

- (i) 60 months following such date; and
- (ii) the date that is 15 business days after all concentrate produced from the stockpiled material has been loaded on to the vessel nominated by Jinhui, and has been paid for by Jinhui.

(e) **Non-binding Arrangements**

The Company has entered into a number of non-binding arrangements with various parties. The purpose of the non-binding arrangements is to summarise the current status and understanding of discussions at that point in time.

The terms of any binding arrangements that may result from non-binding term sheets or letters of intent may vary significantly from those originally contemplated or may not eventuate at all.

(f) **L-Max® Technology Risk**

The L-Max® Technology is a new process that has only been tested under at a pilot scale. The technology has not been scaled up and tested and may not be technically feasible, may not perform the process as it was designed, may prove uneconomic, unreliable and may not be developed on a timely basis.

Competition in retaining and sustaining protection of intellectual property and the complex nature of intellectual property can lead to expensive and lengthy patent disputes for which there can be no guaranteed outcome.

The L-Max® Technology is a proprietary process that is the subject of a granted USA, Australian and Japanese patent, Australian Innovation Patent and a number of patent applications across several countries.

Although the Company is not aware of any third party interests in relation to the L-Max® Technology, there is always a risk of third parties claiming involvement in technological discoveries, and if any disputes arise, they could adversely affect the Company.

Although the Company will implement all reasonable endeavours to protect its L-Max® Technology, there can be no assurance that these measures have been, or will be sufficient.

(g) **LOH-Max™ Technology Risk**

The LOH-Max™ Technology is a new process that has only been tested under, controlled laboratory conditions and small scale batch piloting. The technology has not been scaled up and tested under continuous operation and may not be technically feasible, may not perform the process as it was designed, may prove uneconomic, unreliable and may not be developed on a timely basis.

Competition in retaining and sustaining protection of intellectual property and the complex nature of intellectual property can lead to expensive and lengthy patent disputes for which there can be no guaranteed outcome.

The LOH-Max™ Technology is a proprietary process that is owned by Bright Minz Pty Ltd that is the subject of a patent application. The Company is entitled to a royalty free licence and holds the exclusive marketing rights in exchange for funding the development costs.

Although the Company is not aware of any third party interests in relation to the LOH-Max™ Technology, there is always a risk of third parties claiming involvement in technological discoveries, and if any disputes arise, they could adversely affect the Company.

Although the Company will implement all reasonable endeavours to protect the LOH-Max™ Technology, there can be no assurance that these measures have been or will be sufficient.

(h) **Licensing of Technology**

The Company has entered into binding licencing arrangements for its L-Max® Process. The Company will only receive a monetary gain from

those arrangements if the licensee is able to effectively commercialise the L-Max[®] Process. There is a risk of poor licensee strategy or execution which may impact the success of the L-Max[®] Process on third party deposits.

A dispute over the licencing arrangements between the Company and the licensees may result in costly legal fees.

(i) **No profit to date and uncertainty of future profitability**

Lepidico has incurred losses in the past and it is therefore not possible to evaluate the Company's future prospects based on past performance. Lepidico expects to make losses in the foreseeable future even though its proprietary process technologies might become commercialised. Factors that will determine Lepidico's future profitability are its ability to manage its costs, its ability to execute its development and growth strategies in relation to both exploration and its process technologies, the success of its activities in a competitive market, the actions of competitors and regulatory developments. As a result, the extent of future profits, if any, and the time required to achieve sustainable profitability, is uncertain. In addition, the level of any such future profitability (or loss) cannot be predicted.

(i) **Pre-feasibility Study results**

The Company has completed a PFS for a Phase 1 L-Max[®] Plant (**Plant**) located in Canada. However, the PFS contains statements that are only predictions, based on certain assumptions and involve known and unknown risks, uncertainties and other factors, many of which are beyond Lepidico's control. Actual events or results may differ materially from the events or results expected or implied in any forward-looking statement contained in the PFS. The inclusion of such statements in the PFS should not be regarded as a representation, warranty or prediction with respect to the accuracy of the underlying assumptions or that any forward-looking statements will be or are likely to be fulfilled. Lepidico undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date of the PFS (subject to securities exchange disclosure requirements). The information in the PFS does not take into account the objectives, financial situation or particular needs of any person. Nothing contained in this announcement constitutes investment, legal, tax or other advice.

The assumptions set out in the PFS contain reference to broad indicative plant operating parameters (**Parameters**) for the purpose of the FS which have been developed through scoping level work and subsequent PFS work. For the avoidance of doubt, investors are advised that the Parameters expected to be adopted for the FS do not constitute a production forecast or target in relation to mineral resources associated with any project owned by the Company. The Company wishes to expressly clarify that any references in the PFS to annual production rates relate to scoping and planning parameters and are not a production target. The Company cautions investors against using any statements made in the PFS which may indicate or amount to the reporting of a production target or forecast financial information, as a basis for making any investment decisions about Shares. The primary purpose of disclosing the FS Parameters is to inform on the scope of work for the study and provide an estimate of the intended scale of a potential future Phase 1 L-Max[®] Plant.

Lepidico advises that caution should be exercised in relying on the assumptions in the PFS when analysing the estimates of the potential financial contribution from the Plant. There can be no assurance that statements made in the PFS will prove to be accurate and actual results and future events could differ materially from those anticipated in such statements.

(k) **L-Max® Pilot Plant limited operation**

The Company has completed Campaign 1 of the L-Max® pilot plant. The leach and impurity removal circuits operated continuously for approximately 200 hours and 250 hours respectively. During this period approximately 3.0 tonnes of concentrate was processed to produce 2.2 tonnes of high silica residue, over 5,000 litres of lithium sulphate intermediate liquor and 2.5 tonnes of gypsum rich residue. The bulk of the lithium sulphate liquor was stockpiled as feed for the planned LOH-Max™ lithium hydroxide circuit. The remaining lithium sulphate was treated to produce lithium carbonate via the conventional circuit currently installed at the Pilot Plant. The potassium sulphate (SOP fertiliser) recovery circuit operated continuously for more than 100 hours. Over 2,000 litres of brine containing potassium, rubidium and caesium sulphates were produced. This solution was concentrated in the Pilot Plant crystalliser to produce SOP, along with a rubidium and caesium brine.

Average lithium extraction from concentrate feed to lithium sulphate was 94% for Campaign 1. Insoluble lithium losses associated with impurity removal stages averaged just 3% for the entire campaign and were consistently below 2% for extended periods.

The pilot plant has only been operated for one campaign and may not perform the process as it was designed for any subsequent campaigns.

(l) **Feasibility Study not completed**

Lepidico has commenced but not completed a feasibility study (FS) for a Phase 1 L-Max® Plant and the results of the FS, if completed, may be delayed and may vary materially from the results contained in the PFS.

(m) **Government licences and approvals**

Lepidico through its direct and indirect participation in corporations, partnerships or joint ventures has interests in properties in Namibia, Australia and Canada. Operations may be affected in varying degrees by government regulations with respect to, but not limited to, restrictions on production, price controls, export controls, foreign currency remittance, income taxes, expropriation of property, foreign investment, maintenance of claims, environmental legislation, land use, land claims of local people, water use and mine safety.

Failure to comply strictly with applicable laws, regulations and local practices relating to mineral rights applications and tenure, could result in loss, reduction or expropriation of entitlements. Outcome in courts in other jurisdictions may be less predictable than in Australia, which could affect the enforceability of contracts entered into.

The occurrence of these various factors and uncertainties cannot be accurately predicted and could have an adverse effect on the operations of Lepidico. Lepidico has made its investment and strategic

decisions based on the information currently available to the Directors, however should there be any material change in the political, economic, legal and social environments in Australia, Canada and Namibia the Directors may reassess investment decisions and commitments to assets in these jurisdictions.

(n) **Conflicts of Interest**

Certain directors and officers of the Company are, and may continue to be, involved in the mining and mineral exploration industry through their direct and indirect participation in corporations, partnerships or joint ventures. Situations may arise where the other interests of these Directors and officers may conflict with the interests of the Company. Directors and officers of the Company with conflicts of interest will be subject to and are required to follow the procedures set out in applicable corporate and securities legislation, regulations, rules and policies.

(o) **Management of growth**

The ability of Lepidico to implement its strategy requires effective planning and management control systems. Lepidico's plans may place a significant strain on the Company's management, operational, financial and personnel resources. The Company's future growth and prospects will depend on its ability to manage this growth and to continue to expand and improve operational, financial and management information and quality control systems on a timely basis, whilst at the same time maintaining effective cost controls. Any failure to expand and improve operational, financial and management information and quality control systems in line with the Company's growth could have a material adverse effect on the Company's business, financial condition and results of operations.

(p) **New project risk**

As part of its business strategy, the Company may evaluate new business opportunities and make acquisitions of or significant investments in other resource or non-resource projects. Projects may be located in Australia or overseas. Should a suitable new business opportunity be identified, it will then need to be assessed for its technical, legal and commercial suitability. There is no guarantee that any proposed acquisition of a new business or project will be completed or will be successful. Identification and evaluation of a business opportunity or a project can take considerable time and consume significant cash resources.

(q) **Increases in capital and operating costs**

The actual capital and operating costs could be significantly higher than the estimates, particularly if there are material changes in project scope or delays to the construction of the Phase 1 L-Max[®] Plant or significant movements in inflationary factors. There can be no assurance that actual capital costs and operating costs will be as estimated in the PFS.

7.3 Industry specific

(a) International operations

Any potential future operations of Lepidico in overseas jurisdictions are subject to a number of risks, including:

- (i) potential difficulties in enforcing agreements and collecting receivables through foreign local systems;
- (ii) potential difficulties in protecting rights and interests in assets; and
- (iii) restrictive governmental actions, such as imposition of trade quotas, tariffs and other taxes.
- (iv) any of these factors could materially and adversely affect Lepidico's business, results of operations and financial condition.

(b) Exploration, geological and development risks

Mineral exploration and development are speculative and high risk activities that requires large amounts of expenditure over extended periods of time and may be impeded by circumstances and factors beyond Lepidico's control. The Company's ability to succeed in these practices involves (amongst other things):

- (i) discovery and proving-up, or acquiring, an economically recoverable mineral resource or reserve;
- (i) access to adequate capital throughout the acquisition/discovery and project development phases of a mineral exploration project;
- (ii) securing and maintaining title to such mineral exploration projects;
- (iii) obtaining required development consents and approvals necessary for the acquisition, exploration, development and production phases of the project; and
- (iv) accessing the necessary experienced operational staff, the applicable financial management and recruiting skilled contractors, consultants and employees.

There can be no assurance that forthcoming exploration programmes, or subsequent exploration programmes, will result in the realisation of the Company's objectives such as the discovery of an economic mineral resource. Even if an apparently viable mineral resource is identified, there is no guarantee that it can be economically exploited. Further, conclusions drawn during mineral exploration are subject to the uncertainties associated with all sampling techniques and to the risk of incorrect interpretation or geological, geochemical, geophysical, drilling and other data.

(b) **Operational and technical risks**

The operations of the Company may be affected by various factors, including but not limited to:

- (i) Failure to locate or identify mineral deposits;
- (ii) Failure to achieve predicted grades and tonnes in exploration and mining;
- (iii) Operational and technical difficulties encountered in mining;
- (iv) Insufficient or unreliable infrastructure, such as power, water and transport;
- (v) Difficulties in commissioning and operating plant and equipment;
- (vi) Mechanical failure or plant breakdown;
- (vii) Unanticipated metallurgical problems which may affect extraction costs;
- (viii) Adverse weather conditions;
- (ix) Industrial and environmental accidents;
- (x) Industrial disputes and labour shortages; and
- (xi) Unexpected shortages or increases in the costs of consumables, spare parts, plant and equipment.

(c) **Commodity price fluctuations**

The Company is seeking to develop projects which will be reliant on the prices of various commodities including lithium and various by-products. Lithium is considered an industrial mineral and the sales prices for the different lithium compounds are not public. Lithium is not a traded commodity like base and precious metals. Therefore, it is possible that the sales prices used in the Pre-Feasibility Study will be different than the actual prices at which the Company is able to sell its lithium compounds. Commodity and product prices fluctuate and are affected by numerous factors beyond the control of the Company. These factors include foreign currency fluctuation, worldwide and regional supply and demand for commodities and chemicals, industrial disruption, forward selling by producers and production cost levels, general world economic conditions and the outlook for interest rates, inflation and other economic factors on both a regional and global basis. These factors may have a positive or negative effect on the Company's exploration, project development and production plans and activities, together with the ability to fund those plans and activities.

(d) **Lithium, Caesium and Rubidium Demand**

There are a limited number of producers of lithium, caesium and rubidium compounds and it is possible that those existing producers will try to prevent new-comers from entering the chain of supply by increasing their production capacity and lowering sales prices.

The Company intends to produce lithium hydroxide to be used in the making of cathodes for rechargeable batteries. If cathode manufacturers use less lithium chemical than expected, or if the demand for rechargeable batteries, mainly used in electric and hybrid vehicles, is less than forecasted, it could have a material adverse effect on the sales price, profitability and development strategy of the Company.

In addition, the commercialisation of new technology carries the risk that, at any stage, of development it may be deemed uncommercial for a variety of reasons, including the development of newer and better technologies. A decrease in the demand for lithium, by virtue of technological displacement, would have a significant impact on the Company's business model, operating results and financial position.

(e) **Title risk**

Interests in exploration licences are governed by the national legislation in the relevant jurisdiction. The licences which grant the title to each property are subject to compliance with certain requirements, including lodgement of reports, payment of royalties and compliance with environmental conditions and environmental legislation. Consequently, as is the case in Australia, Lepidico runs the risk of incurring penalties or loss of title to or its interest in its licences if these requirements are not met.

(f) **Joint venture parties, contractors and agents**

In conducting its business, the Company relies on continuing existing strategic relationships and has been forming new relationships with other entities in the mineral exploration and mining industry, including joint venture partners, contractors and agents. There can be no assurance that existing relationships will continue to be maintained or that new ones will be successfully formed and the Company could be materially adversely affected by changes to such relationships or difficulties in forming new ones.

The Directors are unable to predict the risk of financial failure or default by a participant in any joint venture to which the Company is, or may become a party, or insolvency or other managerial failure by any of the contractors used by the Company in any of its activities, or insolvency or other managerial failure by any of the other service providers used by the Company for any activity.

(g) **Environmental risk**

Lepidico's operations will be subject to various regulations regarding environmental matters. Development of each of Lepidico's projects will be dependent on the relevant licences meeting environmental guidelines and gaining approvals by government authorities. Whilst Lepidico intends to conduct its activities in an environmentally responsible manner, risks arise in relation to compliance with these regulations and approvals.

(h) **Unforeseen expenditure risk**

Expenditure may need to be incurred that has not been taken into account in the preparation of this Prospectus. If such expenditure is subsequently incurred, this may adversely affect the expenditure proposals by Lepidico.

(i) **Competition risk**

The industry in which the Company will be involved is subject to domestic and global competition. While the Company will undertake reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, whose activities or actions may, positively or negatively, affect the operating and financial performance of the Company's projects and businesses.

7.4 General risks

(a) **Global Financial Conditions**

Following the onset of the credit crisis in 2008, global financial conditions were characterised by extreme volatility and several major financial institutions either went into bankruptcy or were rescued by governmental authorities. While global financial conditions subsequently stabilised, there remains considerable risk in the system given the extraordinary measures adopted by government authorities to achieve that stability. The deteriorating financial condition of certain government authorities has significantly increased the potential for sovereign defaults in a number of jurisdictions. Global financial conditions could suddenly and rapidly destabilise in response to future economic shocks, as government authorities may have limited resources to respond to future crises. Future economic shocks may be precipitated by a number of causes including changes in commodity prices, geopolitical instability and natural disasters.

(b) **Currency Risk**

The Company's operations currently incur expenditures in various currencies. As a result of the use of different currencies, the Company is subject to foreign currency fluctuations which may materially affect its business, results of operations and financial condition.

(c) **Litigation**

Legal proceedings may arise from time to time in the course of the Company's business. There have been a number of cases where the rights and privileges of mining companies have been subject to litigation. The Directors cannot preclude that such litigation may be brought against the Company in the future from time to time or that it may be subject to any other form of litigation.

(d) **Additional requirements for capital**

The Company's capital requirements depend on numerous factors. Depending on the Company's ability to secure finance for project development and generate income from its planned operations, the Company may require further equity financing in addition to amounts raised under the Offer. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its exploration programmes as the case may be. There is however no guarantee that the Company will be able

to secure any additional funding or be able to secure funding on terms favourable to the Company.

(e) **Governmental policy changes and legal risk**

Government action or policy change in relation to access to lands and infrastructure, compliance with environmental regulations, export restrictions, taxation, royalties and subsidies may adversely affect Lepidico's operations and financial performance.

The Lepidico projects will be governed by a series of laws and regulations. Breaches of non-compliance with these laws and regulations can result in penalties and other liabilities. These may have a material adverse impact on the financial position, financial performance, cash flows, growth prospects and share price of Lepidico.

These laws and regulations may be amended from time to time, which may also have a material adverse impact on the financial position, financial performance, cash flows, growth prospects and share price for Lepidico. The legal and political conditions and any changes thereto are outside the control of Lepidico.

The introduction of new legislation or amendments to existing legislation by government, developments in existing common law, or the respective interpretation of the legal requirements in any of the legal jurisdictions which govern Lepidico's operations or contractual obligations, could impact adversely on the assets, operations and, ultimately, the financial performance of Lepidico and the value of its Shares.

(f) **Reliance on key management**

The ongoing responsibility of overseeing the day-to-day operations and the strategic management of Lepidico will depend substantially on its senior management and its key personnel, especially as it relates to administration, exploration and proprietary process technologies.

There can be no assurance given that there will be no detrimental impact on Lepidico if one or more of these personnel cease their employment.

7.5 Speculative investment

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Securities offered under this Prospectus.

Therefore, the Securities to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Shares.

Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for Securities pursuant to this Prospectus.

Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the 3 months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with the ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of the ASIC; and

Remuneration

The remuneration of an executive Director is decided by the Board, without the affected executive Director participating in that decision-making process. The total maximum remuneration of non-executive Directors is initially set by the Constitution and subsequent variation is by ordinary resolution of Shareholders in general meeting in accordance with the Constitution, the Corporations Act and the ASX Listing Rules, as applicable. The determination of non-executive Directors' remuneration within that maximum will be made by the Board having regard to the inputs and value to the Company of the respective contributions by each non-executive Director. The current amount has been set at an amount not to exceed \$600,000 per annum.

A Director may be paid fees or other amounts (i.e. non-cash performance incentives such as Options, subject to any necessary Shareholder approval) as the other Directors determine where a Director performs special duties or otherwise performs services outside the scope of the ordinary duties of a Director. In addition, Directors are also entitled to be paid reasonable travelling, hotel and other expenses incurred by them respectively in or about the performance of their duties as Directors.

The following table shows the total (and proposed) annual remuneration paid to both executive and non-executive directors.

Cynthia Thomas	\$85,901	\$65,700

8.10 Financial forecasts

The Directors have considered the matters set out in ASIC Regulatory Guide 170 and believe that they do not have a reasonable basis to forecast future earnings on the basis that the operations of the Company are inherently uncertain. Accordingly, any forecast or projection information would contain such a broad range of potential outcomes and possibilities that it is not possible to prepare a reliable best estimate forecast or projection.

Because the sub-registers are electronic, ownership of securities can be transferred without having to rely upon paper documentation.

Electronic registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with a statement (similar to a bank account statement) that sets out the number of Shares issued to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

You can access, correct and update the personal information that we hold about you. Please contact the Company or its share registry if you wish to do so at the relevant contact numbers set out in this Prospectus.

Collection, maintenance and disclosure of certain personal information is governed by legislation including the Privacy Act 1988 (Cth) (as amended), the Corporations Act and certain rules such as the ASX Settlement Operating Rules.
