

ASX / MEDIA ANNOUNCEMENT

25 November 2020

Lepidico Ltd acquisition of Bright Minz Pty Ltd completed

Lepidico Ltd (ASX:LPD) (Lepidico or Company) is pleased to announce the completion of the previously announced acquisition of all of the issued capital of Bright Minz Pty Ltd (Bright Minz), announced on 29 October 2020. Bright Minz is the holder of the LOH-Max[®] process technology which was developed for the production of high purity lithium hydroxide monohydrate from a lithium sulphate intermediate, without production of sodium sulphate, thereby reducing capital and operating costs versus conventional process technologies.

The acquisition of LOH-Max[®] brings all the process technologies employed by the Phase 1 Project under the Lepidico umbrella, thereby streamlining the process for future third party licences.

In addition to a \$10,000 cash reimbursement, the consideration for the acquisition consists of a trailing royalty in relation to third party LOH-Max[®] licences entered into by Lepidico. The Lepidico group retains the right to use LOH-Max[®] royalty free.

About Lepidico Ltd

Lepidico Ltd is an ASX-listed Company focused on exploration, development and production of lithium chemicals. Lepidico owns the technology to a metallurgical process that has successfully produced lithium carbonate from non-conventional sources, specifically lithium-rich mica minerals including lepidolite and zinnwaldite. The L-Max[®] Process has the potential to complement the lithium market by adding low-cost lithium carbonate supply from alternative sources. More recently Lepidico has added LOH-Max[®] to its technology base, which produces lithium hydroxide from lithium sulphate without by-product sodium sulphate. The Company has completed a Definitive Feasibility Study for a nominal 5,000 tonne per annum Lithium Carbonate Equivalent (LCE) capacity Phase 1 lithium chemical plant, targeting commercial production for 2023. The Project incorporate the Company's proprietary L-Max[®] and LOH-Max[®] technologies into the chemical conversion plant design. Feed to the Phase 1 Plant is planned to be sourced from the Karibib Project in Namibia, 80% owned by Lepidico where a predominantly Measured and Indicated Mineral Resource of 11.24 Mt grading 0.43% Li₂O, (including Measured Resources of 2.20 Mt @ 0.57% Li₂O, Indicated Resources of 6.66 Mt @ 0.38% Li₂O and Inferred Resources of 2.37 Mt @ 0.43%, at a 0.15% Li₂O cut-off) is estimated. (ASX announcement of 30 January 2020). Ore Reserves total 6.72 Mt @ 0.46% Li₂O, 2.26% rubidium, 2.02% potassium and 320ppm caesium (ASX announcement of 28 May 2020).

Forward-looking Statements

All statements other than statements of historical fact included in this release including, without limitation, statements regarding future plans and objectives of Lepidico, are forward-looking statements. Forward-looking statements can be identified by words such as "anticipate", "believe", "could", "estimate", "expect", "future", "intend", "may", "opportunity", "plan", "potential", "project", "seek", "will" and other similar words that involve risks and uncertainties. These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that are expected to take place. Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company, its directors and management of Lepidico that could cause Lepidico's actual results to differ materially from the results expressed or anticipated in these statements.

The Company cannot and does not give any assurance that the results, performance or achievements expressed or implied by the forwardlooking statements contained in this release will actually occur and investors are cautioned not to place any reliance on these forwardlooking statements. Lepidico does not undertake to update or revise forward-looking statements, or to publish prospective financial information in the future, regardless of whether new information, future events or any other factors affect the information contained in this release, except where required by applicable law and stock exchange listing requirements.
